DIT SIWES LOG BOOK

1. This log-book is to assist the student to keep accurate record of the Training and Skills acquired during their SIWES training, and also to provide opportunity to demonstrate their capacity to thrive in any section or department in which the student may be positioned in the work place environment within the period of (SIWES) placement.
2. The Student must keep all records of important activities of each working week, clearly illustrating these with Sketches /Diagrams and where necessary, additional sheet may be attached for this purpose.
3. Students must submit their log book to their manager, trainer, supervisor or whoever they report to at work, also known as Industry-Based Supervisor (IBS) every week and months for evaluation and comment on the progress report of their training fully signed and dated.
4. The duty of DIT (SIWES) training Co-ordinator/HOD /Supervising Lecturer is also to meet with students and evaluate the student's log -books at regular intervals, preferably every month to ensure students under his/her supervision receives adequate support and training . The HOD/Supervisor should also record this important comment, based on informed opinion obtained as a result of coordinated approach or synergy between him and the organization's (IBS).

For the monthly summary report, student must give a concise summary report to reflect important work done during the last four weeks, the practical assignment completed, so as to demonstrate they possess critical awareness, understanding and capacity necessary to work and achieve growth in the industry.

Dalewares Institute of Technology , as a creative and industry focused polytechnic attaches great value to the judgment and commenst of our partners through their representatives, the (IBS) hence, from time to time the (DIT) Academic Council shall be evaluating the quality of these comments to determine the competence of (SIWES) organization to successfully manage our students progress, and to enable them to attain and exceed their creative potential in a highly competitive and changing work environments.

At the last page of this SIWES log book titled "STUDENT OVERALL RECOMMENDATION FOR COMPANY" student should use these opportunity to make recommendation or proffer solution that would take the organization to the next level. It is very important that our students believe that their recommendation would improve the growth of the organization as a result of their SIWES experience.
